

Santa Clarita Valley SELPA

Special Education Community Advisory Committee

Invites you to attend:

Apps, Extensions, and Accessibility Features to Help Students with Distance Learning

Presented by:

Julie Casady, Lauren Miles and Madison Heller

Workshop for Parents.....

Technology is the primary tool in Distance Learning. Students are logging into virtual classrooms using their smartphones, laptops, and tablets to receive instruction and complete assignments. What supports are available for our students while they are learning online? Let's look at some easy to access tools to make online learning easier. During this training we will introduce accessibility features, apps and extensions, online resources, and tips and tricks that support the tasks that are required for a seamless online learning experience.

Location: Virtually/Telephonically

Date: Monday, October 19, 2020

**Times: Business Meeting 6:00 pm
Parent Workshop 7:00 pm**
